

STEEL RIGID METAL CONDUIT

THE ULTIMATE PROTECTION

Wheatland Tube's steel rigid metal conduit (RMC) is all made and melted in America for jobs that require the physical protection that only the thickest walls can provide. Fabricated from hot-dip galvanized steel inside and out, RMC is tough enough for use in outdoor applications, energy and manufacturing plants, and corrosive environments. Plus, it's easy to cut, bend and thread on the job. And all sizes are readily available for next-day delivery from 21 stocking locations. That's how we MAKE IT eZ.
